

Mastek Named a Supplier on the UK Crown Commercial Service's Digital Capability for Health 2 (DCfH 2) Framework

Reading, UK, 6th March 2025: Mastek (NSE: MASTEK; BSE: 523704), a trusted digital engineering and cloud transformation partner, announced that it has been named a supplier on the UK Crown Commercial Service's RM6345 Digital Capability for Health 2 (DCfH 2) framework. This is a single-lot agreement supporting digital transformation programmes in the health and social care sector.

The DCfH 2 framework will operate for the next three years, with the option for a one-year extension. This framework will provide Health and Social Care organisations with access to Mastek's expertise in delivering agile development services for new digital solutions, supporting existing products and services, and offering data management services – including health data collection, processing, and distribution.

Through DCfH 2, Health and Social Care organisations can procure Digital, Data, and Technology (DDaT) resources to support digital transformation programmes across the UK public health and social care. This includes both the development of new digital solutions and the maintenance of existing services.

This single-lot agreement encompasses five key service provisions.

1. **Development and Operations (DevOps):** Continuous improvement of live services.
2. **Digital Definition Services:** Support for discovery and alpha phase projects.
3. **Build and Transition Services:** Service development through beta and live phases.
4. **End-to-End Development Services:** Full lifecycle support from discovery to live.
5. **Data Management Services:** Data collection, processing, analysis, and governance.

"Mastek has a long-standing history of delivering digital engineering expertise to transform UK public services. We are delighted to be named as a supplier under this framework, reflecting our role as a valued and trusted partner. We are committed to drive digital advancements that enhance patient care and promote social well-being. We look forward to collaborating with both new and existing organisations through this framework to support the UK's healthcare transformation journey." said **Abhishek Singh, President of UKI & Europe, Mastek.**

The agreement aims to support the ongoing digitisation and modernisation of the NHS digital infrastructure, aligning with the UK Government's plans for the NHS. Mastek continues to play a crucial role in supporting the provision of healthcare services and enabling faster, safer, and more convenient patient care.
